

OH! TABLE

enea

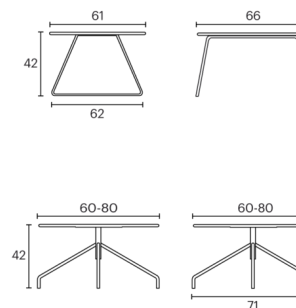

BY Gabriel Teixidó

Structures

- Ø18×2 mm round cold rolled steel tube
- Semi-automatic steel robot welding with gas-controlled steel wire input

Measures

Oh! table goes perfectly with the lounges of the same collection because it has the same structures available: sledge or 4-star ones made of chrome or lacquered steel. The table top can be rounded or rectangular HPL and it has the same height than lounges, which offers the possibility of creating a bench.
