

# LOTTUS STOOL CENTRAL BASE

enea

BY Lievore Altherr Molina

## Structures

- Ø50×2 mm round cold rolled steel tube
- Lacquered steel disc for base
- Semi-automatic steel robot welding with gas-controlled steel wire input

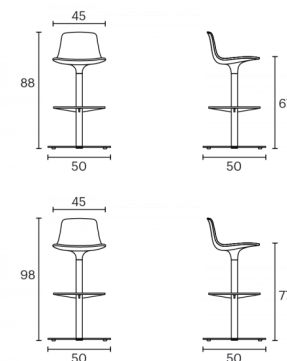

## Certificates

UNE-EN 15373:2007  
Strict public assessment 3.

## Finishes

- Structure lacquered or chromed (with chromed, lacquered or inox footrest).
- Shell in polypropylene or upholstery.
- Seat in polypropylene or upholstery.

## Measures

Lottus stool with backrest and central base has a swivel steel structure that comes lacquered in any of our colours and it has a broad range of finishes: wooden shell with frontal upholstery option, polypropylene shell with or without polypropylene or upholstered seat pad, or fully upholstered one. This model is available in two heights: a high one for cafes, bars and restaurants, and a medium-height one for more corporate and residential spaces.
