- Semi-automatic steel robot welding with gas-controlled steel wire input

## Certificates

UNE 11010/11011/11016:1989 ensayo 5 (actual 3)  
Strict public assessment.  
UNE-EN 1729:1/2 2007.  
ANSI BIFMA X 5.1

## Finishes

- Structure lacquered or chromed (with arms in polished aluminium).
- Seat in polypropylene or upholstery.
- Back in polypropylene or upholstery.

## Measures

The 4-legged steel structure and the optional aluminium armrests of Eina stool are chromed/polished or lacquered in any of our colours. The seat and backrest are produced in polypropylene and can be upholstered in a broad range of fabrics, what allows to create a monochromatic or a more casual stool. This model comes with backrest which is available in three heights: a low one, a high one for cafes, bars and restaurants, and a medium-height one for more corporate and residential spaces.
