

MATE LIFT STOOL

enea

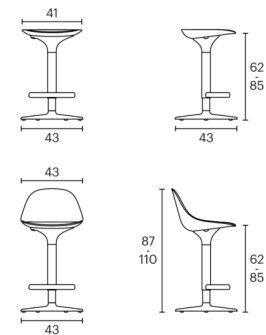

BY Estudi Manel Molina

Structures

- Ø60 / Ø50 mm round cold rolled steel tube frame, lacquered in any of our colours.
- Aluminium stool base
- Aluminium seat base
- Semi-automatic robotic steel welding with gas-controlled addition of steel wire
- 32 x 18 mm oval steel tube footrest, lacquered in any of our colours
- Low or high backrest
- Optional fire-resistant polypropylene according to M2 standard

Measures

The Mate Lift stool is available with either a low or high backrest. It features a swivel frame made of aluminium and steel which can be lacquered in any of our colours. It can also be customised in a great number of finishes, including a polypropylene shell, with the choice of a polypropylene or upholstered seat pad, and a fully upholstered option. And because the stool is adjustable, it is perfectly suited to both the home and different hotel and work spaces.
