## Lottus chair

Lievore Altherr Molina

Lottus Chair designed by Lievore Altherr Molina following the lines and the style of the Lottus stool. This seats program is made up of injected polypropylene bench formed by a single frame combining colour and upholstery on the seat.

The design allows it to be mounted on several painted metal tube structures with a stackable 4 leg base, stackable sledge base and swivelling central leg, as well as a 4 leg chair with arms and without, with wheels, as well as 3 different types of armrests: steel, aluminium and wingshaped armrest. In the 2010 the family was extended with the new version Lottus Spin, a 4 leg base fixed or swivelling and the children's version. And since 2011 the Lottus chair is

also available with integral upholstered frame and oak veneer frame. In 2012 are added the versions of high-back chair , new aluminium base for the office chair, wood structure and 2D an 3D wood frame.

All this combined with its contained dimensions, carefully studied ergonomics and a friendly shape makes the Lottus chair a versatile product with a wide range of applications, either in the contract at home.
