Global Josep Llusçà

Global, a functional chair, comfortable, lightweight, durable, stackable, versatile, is designed to meet the needs that come in both private and public spaces. Available in different versions (with and without arms, 4 legs, swivel foot or sledge foot as well as bench) in a large chromatic palette (it is mostly the monochrome finish that provides comprehensive endless possibilities to integrate and customize different environments), and finishes in lacquer, chrome, polypropylene and upholstery.

The chairs are also linkable with a connection system, stackable in all versions and allows, if necessary, a writing tablet. Three features that make the use of Global in contract spaces such as conference rooms, auditoriums or classrooms.

So we can say that Global is a chair that is obtained from the result of a balancing exercise between ergonomics, form and constructive rationalization, and the stylized resulting shape suggests especially comfort.
