## Lottus Chair & Barstool / Projects

Lievore Altherr Molina

**Lottus Chair**, designed by Lievore Altherr Molina is a seats program made up of injected polypropylene bench formed by a single frame combining colour and upholstery on the seat.

The design allows it to be mounted on several painted metal tube structures with a stackable 4 leg base, stackable sledge base and swivelling central leg, as well as a 4 leg chair with arms and without, with wheels, as well as 3 different types of armrests: steel, aluminium and wingshaped armrest. In the 2010 the family was extended with the new version *Lottus Spin*, a 4 leg base fixed or swivelling and the *children's*.

The **barstool Lottus**, designed by Lievore Altherr Molina, is composed of one-piece, seat and backrest, injected polypropylene shells with the possibility of combining colours and plas-c or tex-le finishes. All mounted on different metallic lacquered, chrome or stainless steel tube structures.

The polypropylene shells can be one-colour or combined with a polypropylene or upholstered round seat panel; while the bases are available in 3 different formats: 4 swivel legs, swivel central base with square foot, or fixed sledge foot, those last two comes in 2 heights, 977mm or 877mm.
