

## Lottus Wood / Projects

Lievore Altherr Molina

Lottus Wood is an evolution of the Lottus program designed by Lievore Altherr Molina.

The design allows multiple combinations as Lottus Wood, always performed over a structure in natural or stained birch plywood, is available with polypropylene shell of different colours (single colour or bicolour) full or partial upholstered or wooden shell 3D .

Lottus Wood Family offers contemporary and timeless design, and is produced under ecodesign and environmental parameters and wood from sustainable forests with all current certificates.
