

Ema Stool

Inspired by life
made by enea

The Ema stool is sturdy, lightweight, stackable and cosier, making it perfect for all types of spaces.

The steel sled leg frame can be chromed or lacquered in any of our colours, and the seat and backrest are available in polypropylene or upholstered.

The Ema stool has an upholstered seat pad available, very useful for multi-purpose or crowded spaces as it improves stacking by causing less friction than the fully upholstered version. This model can be made in two heights: high and medium.

Structure

MEDIUM SLEDGE

HIGH SLEDGE

Shell

Sustainability

- Ecodesigned (ISO 14006).
 - Highly recyclable polypropylene with low additive content, according to EU recommendations to improve the recyclability of plastics.
 - Polyurethane foams (foam) free of latex and hazardous substances.
 - Selection of upholstery fabrics from wool, recycled (and recyclable) fibres and leather.
- For the end-of-life phase, the number of components and their ease of separation have been minimised, all of which are 100% recyclable or reusable.
- All cardboard used in packaging is recyclable.

Certificates

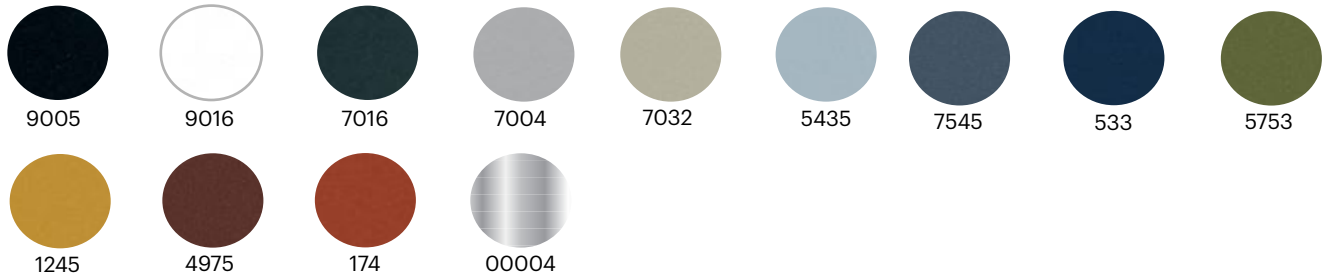

- ISO 14001 compliant environment.
- Indoor Advantage Gold certified (indoor air quality).
