

CADDY COAT STAND

enea

BY Estudi Manel Molina

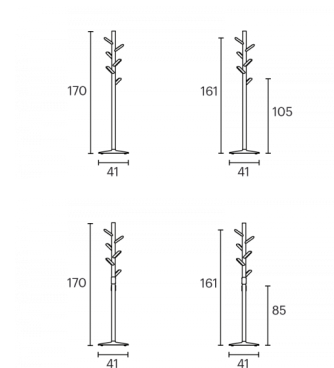

Structures

- Metal frame for the rounded-square base and the Ø50×2 mm round tube, made of cold rolled steel
- Solid beech hangers, polyurethane varnish, stained, natural finish and base, semi-matt gloss with ultraviolet and anti-yellowing treatment, quality E1

Certificates

Ecodesign Product in accordance to UNE-EN ISO 14006.

Measures

Caddy coat stand, with lacquered steel structure, offers 6 or 8 hooks available in solid beech wood or polypropylene in any of our colours. Due to this, Caddy allows to combine different tones, textures and materials.
