- UNE-EN 1730:2013

Measures

Accessories

Felt foot pads

Transport and storage trolley

The Tema table features a steel tube frame that can be either chromed or lacquered in any of our colours. Its tabletop and side panel are available in different finishes. It allows stacking of up to 10 units on the ground, and up to 20 units on the trolley. Therefore, this is a highly stackable piece designed for multipurpose and highly functional spaces, ranging from training rooms to schools and universities.
