Enea, showing again at the Salone Internazionale del Mobile which is held from the 17 to 22 April 2012 in the Rho-Pero (Milan) fairgrounds, shows the latest additions to the Lottus family, designed by Lievore Altherr Molina. The Lottus chair grows exponentially with new and functional features making it more attractive and adaptable to any home or contract space.

The Lottus chair a versatile and adaptable seat for home and contract spaces in 2012 includes the following variants:

- High-back chair
- New aluminium base for the office chair
- 3D wood frame that can be mounted on any existing structure existing in the Eneas' catalogue
- Wood structure on which can be mounted different frames in polypropylene, upholstered or combined and even 3D wood.
