

PRESS RELEASE

Legorreta, April 2013

Ema and Lottus wood the Enea novelties at the Salone Internazionale del Mobile in Milan 2013

*Ema, a chair program of high stackability, lightweight and functional and the **wood finish** for the barstool, chair and table versions of the **Lottus program** are the main novelties Enea presents at the 52nd edition of the Salone Internazionale del Mobile in Milan 2013.*

Enea, international contemporary design furniture firm, expert in the production and marketing of seats and tables for home and contract spaces, participates one more year at the **Salone Internazionale del Mobile**, which takes place from 9 to 14 April, 2013 in Milan. A fair considered the best worldwide in the furniture industry for home and contract.

In an area located in **Hall 10 - Stand E14** the company presents the recent developments of furniture designed especially for home and contract spaces. The new chairs program **Ema** and **wood finish** for stool, chair and table **Lottus**, both designed by Lievore Altherr Molina. In addition to the chair **Lottus High** and the table **Way**, a Josep Llusca design and presented in late 2012.

Ema Chair

Ema is the new Enea program chairs characterized mainly by its high stackability as can be stackable about up to 45 units in trolley case. It is a lightweight chair which weight about 4 kg and made up of a thin steel tube structure, with the possibility of lacquer or chrome. The seat and back are made of polypropylene and available in all Enea finishes. It can be full upholstered and is manufactured with or without arms, and open backed or integer.

There is also a connection between structures to create entire rows of seats. A feature especially designed for those spaces which requires large amount of chairs together in order to maximize the space.

EMA chair made up in tubular steel, yellow polypropylene and open and full backrest.

Lottus program in wood finish & Lottus High

Lottus **wood finish** is the latest addition which Enea introduces in this multifaceted and versatile program. Thus stool, chair and table are available with this new finish in order to get environments and atmospheres of great warmth for home, hospitality and contract spaces. A recent addition, that has obtained an important acceptance and impact.

Lottus barstool, chair and table in wood finish

The **Lottus High** chair is another of the latest additions to the Lottus program recently introduced by Enea. A high back chair designed especially for home office contract spaces where the ergonomics of the seat is one of the important elements in choosing it.

The Lottus High chair for home office spaces with wheels, spin and 4 legs.

Way table

The **WAY** table conceived by Enea with the intention of providing furniture solutions adaptable to the new flexible work forms in contract and home office spaces. With this new table, Enea offers a product whose main aim is its easy disposal, as well as multiple composition possibilities with various accessories.

WAY table with splitter panel, CPU holder, locker and drawer.

Enea is a company born in 1984 with the aim of offering contemporary design product, ideal for all types of spaces: private interiors, offices, hotels, auditoriums, conference rooms, etc.

Since its inception, the company has positioned itself as one of Europe's leading contract furniture. This has been possible thanks to the collaboration of prestigious and experienced designers as Josep Llusà, Gabriel Teixidó and Alhterr Lievore Molina.
